A member shall not be deemed to have terminated employment if the member subsequently provides service to any employer participating in the retirement system provided for in the School Employees Retirement Act within one hundred eighty days after ceasing employment unless such service:

(a) Is bona fide unpaid voluntary service or substitute service, provided on an intermittent basis; or

An employee hired as described in this subdivision to provide service for less than twenty hours per week but who provides service for an average of twenty hours or more per week in each calendar month of any three calendar months of a plan year shall, beginning with the next full payroll period, commence contributions and shall be deemed a regular employee for all future employment with the same employer; and

(41) Temporary employee means an employee hired by a public school who is not a regular employee and who is hired to provide service for a limited period of time to accomplish a specific purpose or task. ~~(3) The retirement board shall reinstate to membership, with the same status as when such membership ceased, a school employee who has withdrawn his or her accumulated contributions under the following conditions:~~

~~(a) If he or she again becomes an employee and if such employee chooses within three years after rejoining the system to repay, within five years after the date on which he or she rejoins the retirement system or prior to termination of employment, whichever is first, to the retirement board part or all of the amount he or she has withdrawn plus interest which would have accrued on that amount under the retirement system; or~~

(b) If, more than three years after again becoming an employee and rejoining the system but prior to termination of employment, he or she chooses to repay part or all of the amount he or she has withdrawn, plus an amount equal to the actuarial assumed rate of return for the period repaid. Payment must be completed within five years after electing to repay or prior to termination, whichever is earlier.

(4) Prior creditable service shall be restored in proportion to the amounts repaid. A member's prior creditable service shall be fully restored only if the member has repaid all accumulated withdrawals in accordance with either subdivision (3)(a) or (3)(b) of this section, as applicable. Repayment may be made through direct payment, installment payments, or an irrevocable payroll deduction authorization. If the school employee chooses not to repay such withdrawals with interest, the school employee shall enter the system as a new member with no prior rights.

(3) (a) A former member of the retirement system who has withdrawn his or her accumulated contributions under section 79-955 shall be reinstated to membership in the retirement system if such person again becomes a school employee.

(b) The date of such membership shall relate back to the beginning of his or her original membership in the retirement system only if such school employee has repaid all amounts required in accordance with subsection (4) of this section. Unless and until all such amounts are repaid, the school employee shall be considered a new member, effective as of the date he or she again becomes a school employee.

(4) (a) With respect to any person who is reinstated to membership in the retirement system pursuant to subdivision (3) (a) of this section prior to the effective date of this act and who files a valid and complete one-time application with the retirement board for the restoration of part or all of his or her relinquished creditable service prior to six years after the effective date of this act but prior to termination, the following shall apply:

(ii) Payment for restoration of such relinquished creditable service must be completed within six years of the effective date of this act or prior to termination, whichever is earlier.

(b) With respect to any person who is reinstated to membership in the retirement system pursuant to subdivision (3) (a) of this section on and after the effective date of this act and who files a valid and complete one-time application with the retirement board for the restoration of part or all of his or her relinquished creditable service within five years after the date of such member's reinstatement to membership in the retirement system but prior to termination, the following shall apply:

(i) Such member shall pay to the retirement system an amount equal to the previously withdrawn contributions for the creditable service to be restored, plus an amount equal to the actuarial assumed rate of return on such amount to the date of repayment; and

(ii) Payment for restoration of such relinquished creditable service must be completed within five years of the date of such member's reinstatement to membership in the retirement system or prior to termination, whichever is earlier.

(5) If less than full payment is made by the member, relinquished creditable service shall be restored in proportion to the amounts repaid. The member's interest under subdivision (a) or (b) of this subsection must be transferred to the retirement system within sixty days from the date of the distribution from the qualified plan, individual retirement account, or individual retirement annuity.

(2) Cash transferred to the retirement system as a rollover contribution shall be deposited as other payments for purchase of service credits or repurchase of relinquished creditable service pursuant to section 79-921.

Amounts accepted pursuant to this subsection shall be deposited as all other payments under this section.

(4) The retirement system may accept direct rollover distributions made from a qualified plan pursuant to section 401(a)(31) of the Internal Revenue Code. The direct rollover distribution shall be deposited as all other payments under this section.

(5) The board shall adopt and promulgate rules and regulations defining procedures for acceptance of rollovers which are consistent with sections 401(a)(31) and 402 of the Internal Revenue Code.

Such an agreement may be executed up to twelve months prior to the employee's retirement date. The agreement shall specify whether the school employee shall pay for the service credits, whether the employer shall pay for the service credits, or whether both the employee and employer shall share the cost of the service credits. Such service credits shall be purchased for an amount equal to the actuarial cost to the retirement system for allowing such additional service credit to the employee.

(2) Payment for such service credits shall be completed prior to the employee's termination of employment date and may be made through direct payment, installment payments, or an irrevocable deduction authorization. If payments are made on an installment basis, interest shall be charged at the rate of regular interest.

(3) Compensation for the period of service purchased shall not be included in determining the member's final average compensation.

(4) The retirement board shall credit funds collected pursuant to this section to the Contingent Account pending the employee's retirement. If the employee does not retire within twelve months after the signing of the agreement made pursuant to this section, such funds shall be refunded,

excluding interest earned, and the employee shall not be given credit for the service credit attempted to be purchased.

Sec. 7. Section 79-933.09, Reissue Revised Statutes of Nebraska, is amended to read:

Sec. 10. Section 79-991, Revised Statutes Supplement, 2013, is amended to read:

79-991 (1) An employee who becomes a member without prior service credit may purchase prior service credit, not to exceed the lesser of ten years or the member's years of membership service, for the period of service the member was employed by a school district or by an educational service unit and which is not used in the calculation of any retirement or disability benefit having been paid, being paid, or payable in the future to such member under any defined benefit retirement system or program maintained by such other school district or educational service unit. The purchase of prior service credit shall be made in accordance with and subject to the following requirements:

(a) A member who desires to purchase prior service credit shall make written application to the administrator of the retirement system that includes all information and documentation determined by the administrator as necessary to verify the member's prior service and qualification to purchase the prior service credit. Such application shall include the member's written authorization for the administrator to request and receive from any of the member's former employers verification of the member's prior service, salary, and other information for determining the member's eligibility to purchase prior service credit. Before prior service credit may be purchased, the administrator shall have received verification of the member's salary in

each year with the other school district or educational service unit and confirmation that the prior service to be purchased by the member is not also credited in the calculation of a retirement or disability benefit for such member under another defined benefit retirement system or program. The member's application to purchase prior service credit may be made at any time before the fifth anniversary of the member's membership in the retirement system or, if earlier, the member's termination of employment with the school district;

(b) The member shall pay to the retirement system the total amount he or she would have contributed to the retirement system had he or she been a member of the retirement system during the period for which prior service is being purchased, together with interest thereon as determined using the rate of interest established by the board for interest on such purchases of prior service credit. Such payment shall be based on the most recent years' salary the member earned in another school district or educational service unit if the salary is verified by the other school district or educational service unit or, if not, the payment shall be based on the member's annual salary at the time he or she became a member;

(c) Payments by the member for the purchase of the prior service credit shall be paid as the trustees may direct through direct payments to the retirement system or on an installment basis pursuant to a binding irrevocable payroll deduction authorization between the member and the school district over a period not to exceed five years from the date of membership. Interest on delayed payments shall be at the rate of interest established by the board for determining interest on delayed payments by members to the retirement system. In the event the member terminates employment with the school district for any reason before full payment for the prior service has been made, the remaining installments shall be immediately due and payable to the retirement system. Prior service credit may be purchased only in one-tenth-year increments, and if payments are made on an installment basis, the prior service will be credited only as payment has been made to the retirement system. If the prior service to be purchased by the member exceeds the member's membership service at the time of application or any subsequent date, such excess prior service shall be credited to the member only as the member completes and is credited additional membership service, in one-tenth-year increments, notwithstanding the member's payment for such prior service credit. If the member retires or terminates employment before completing sufficient membership service to permit all of the excess prior service that has been purchased by the member to be credited to such member, the retirement system shall refund to the member, or to the member's beneficiary if the member's termination is due to his or her death, the payments that have been made to the retirement system for such uncredited prior service, together with regular interest on such refund; and

(d) The school district shall contribute to the retirement system an amount equal to the amount paid by each member for the purchase of prior service credit at the time such payments are made by such member.

(2) Any member having five or more years of creditable service, excluding Any employee who became a member before July 1, 2014, and who has five or more years of creditable service and any employee who became a member for the first time on or after July 1, 2014, and who has ten or more years of creditable service, excluding in either case years of prior service acquired pursuant to section 79-990, 79-994, 79-995, or 79-997, or subsection (1) of this section, may elect to purchase up to a total of five years of additional creditable service under the retirement system, and upon such purchase the member shall be given the same status as though he or she had been a member of the retirement system for such additional number of years, except as otherwise specifically provided in the Class V School Employees Retirement Act. Creditable service may be purchased only in one-tenth-year increments. The amount to be paid to the retirement system for such creditable service shall be equal to the actuarial cost to the retirement system of the increased benefits attributable to such additional creditable service as determined by the retirement system's actuary at the time of the purchase pursuant to actuarial assumptions and methods adopted by the trustees for this purpose. The election to purchase additional creditable service may be made at any time before the member's termination of employment, and all payments for the purchase of such creditable service must be completed within five years after the election or before the member's termination or retirement, whichever event occurs first. Payment shall be made as the trustees may direct through a single payment to the retirement system, on an installment basis, including payments pursuant to a binding irrevocable payroll deduction authorization between the member and the school district, or by such other method approved by the trustees and permitted by law. If payments are made on an installment

basis, creditable service will be credited only as payment has been made to the retirement system to purchase each additional one-tenth-year increment. Interest shall be charged on installment payments at the rate of interest established by the board for determining interest on delayed payments by members to the retirement system.
